3.1.9 Assignment of MPSCS Event Talkgroups

I. Subject and Purpose

The purpose of this policy is to define and implement procedures regarding the assignment of Michigan Public Safety Communications System (MPSCS) Event Talkgroups.

II. Procedures and Guidelines

All efforts will be made to fulfill requests for Event talkgroups assigned to public safety emergencies.

Event Talkgroups are for short duration events that typically last less than 24 hours.

Requests for Event Talkgroup assignments longer than 48 hours must be approved by the NCC Manager or designee.

The member agency must first confirm local talkgroups, i.e.; SPEV, COM, EMER, etc, are not available to the agencies responding to the incident prior to requesting a Special Event talkgroup.

A written communications plan shall be submitted with the Event Request Form when more than one Event talkgroup is requested for an event or incident. The communications plan will identify the use of the additional talkgroups within the event.

Communications plans involving more than one Event talkgroup shall reference the National Incident Management System (NIMS) guidelines when developing the plan.

The member must consider the possibility of escalation of an event when the Event Request Form is submitted. This could affect the number of Event talkgroups requested.

Only agencies with MPSCS radios at Service Level 2, Level 3 or Full may request Event talkgroups.

Talkgroups Event01 through Event30 is available for all Public Safety use.

Talkgroups Event31 through Event45 is reserved for Law Enforcement use only.
